Azuki beans organic

These small, dark red to reddish-brown Azuki beans have a sweet, nutty flavour. They are widely used in Asia and have long been a staple ingredient in traditional sweet pastes for desserts. They also have a significant place in traditional Chinese medicine and macrobiotics. Azuki beans are low in fat and high in protein and fibre. They are incredibly versatile and can be used in purees, salads, burgers, or fritters, as a soup ingredient, side dish, or sweet paste for creative desserts and baked goods. Discover more power beans in our shop: dark red kidney beans, black beans, or small green mung beans.
