

Peanut butter with salt

Designation: peanut butter with pieces, salted

Description: No two peanuts are the same. The type of peanut we use for our organic peanut butter, as well as the gentle roasting process, give it an intense, full flavour and a special consistency. The small peanut pieces provide the extra crunch. It is not only delicious as a spread, but also as a base for pastries such as banana bread and savoury dishes such as dips, sauces and vegetable dishes. The nut's own oil can settle on the surface. Stirred, the result is again a creamy consistency. TerraSana has been producing creamy nut butters in-house with solar energy for many years. The careful selection of nut varieties and the degree of roasting creates the uniquely pure and nut flavour.

Preparation: The spicy peanut puree tastes good as a spread. It also refines dips, sauces and vegetable dishes.

Ingridients: peanut kernels* 99%, salt
