## Maple syrup organic grade A 12x250ml

Designation: maple syrup grade A

**Description:** Organic maple syrup is made from the sap of certain maple trees. Harvesting takes place in the spring, when the sap is replenishing the upper parts of the tree after a long winter. To ensure that the tree remains healthy and can provide its sweet sap for many years to come, only part of the sap is taken from trees that are already large enough. Immediately after harvesting, the sap is boiled down and then bottled. The resulting maple syrup is more liquid than honey and has a sweet taste with nutty, caramel-like, slightly bitter notes. The time of harvest influences the taste and colour of the syrup. Grade A is a light, amber-coloured, mild syrup. It is ideal for topping our popular pancakes, but is also a great choice for sweetening baked goods, desserts, dressings and drinks.

**Preparation:** A classic for pancakes, but also great for sweetening baked goods, dressings, sauces, desserts and drinks. Once opened, keep in the fridge.

Ingridients: maple syrup\*
