

maple syrup organic grade B, dark colour robust taste (4l/5,28kg per canister)

Organic maple syrup is derived from the sap of specific maple tree varieties. The harvest takes place in spring, when the sap revitalises the tree's upper parts after a long winter. To keep the tree healthy and ensure many years of sweet sap production, only a portion of the sap is collected from trees of sufficient size. Immediately after harvest, the sap is boiled down and then bottled. The resulting maple syrup is thinner than honey and has a sweet flavour with nutty-caramel notes and a slight bitterness. The harvest time determines the syrup's taste and colour: Grade C is dark and full-bodied in flavour. It is perfect for the classic use on pancakes, but also for sweetening baked goods, desserts, dressings, and beverages.
