

Quinoa white organic

Designation: quinoa white

Description: Organic quinoa is a versatile and nutritious pseudo-cereal and is therefore naturally gluten-free. This super food, also known as "gold of the Incas", originally comes from South America, where it has been cultivated and valued for thousands of years. Thanks to its adaptability to different growing conditions, it is also increasingly being cultivated in Europe. With its mild, nutty flavour and light texture, quinoa is a welcome change from conventional grains and is becoming increasingly popular in modern cuisine. It is easy to prepare and a delicious addition to any meal. Quinoa is a good source of protein and rich in fibre, making it an excellent ingredient for vegetarian and vegan dishes. Organic quinoa is particularly versatile and can be used as a side dish, in salads, soups, stews and for baking. It is also a great idea for breakfast in muesli and porridge with fresh fruit and nuts.

Preparation: Place 1 cup of quinoa in a sieve and rinse. Bring 2 cups of salted water or vegetable stock to the boil, sprinkle in the quinoa, bring to the boil briefly and cook over a reduced heat for approx. 15 minutes. Can be used as a versatile side dish, in soups and stews, for fillings and warm breakfast ideas.

Ingridients: quinoa white*
