

Cornflower honey creamy organic Bioland Germany Blütenmeer Imkerei 500g

Designation: Cornflower honey

Description: The cornflower is considered an unloved herb in agriculture and has therefore almost disappeared from our landscape. Only in the organically managed fields of Brandenburg do the bees of Blütenmeer apiculture find larger quantities of the otherwise rare flowers. They provide a unique neon yellow nectar, which produces a wonderfully golden, aromatic cornflower honey. A true treasure from nature and a delicacy for honey lovers!

Preparation: Please store the jar upright.

Ingridients: cornflower honey*
